

ROB SPENCE KEYNOTE TECHNICAL RYDER

Stage/Space:

- Minimum 1 meter wide by 1 meter deep - ideally 60 cm high.

Sound:

- Sound system with mixing console.
- High-quality headset microphone - if needed, Rob Spence can bring his own Sennheiser wireless mic with DPA headset.
- The sound must be in good condition - clear, loud, and free of distortion!

Lighting:

- The stage/space must be even and well-lit.
- White front lighting.

Projector:

- A projector with screen (or a large LED screen) with an HDMI input to connect Rob's MacBook for a PowerPoint presentation.
- The PowerPoint includes musical elements and must be connected to the sound system.

Setup Time:

- 15 minutes (microphone and projector check)

Important:

- A technician or responsible person who is familiar with the venue's technical setup and has access to all necessary equipment and rooms must be available to assist with setup and during the keynote.

Extras:

- 1 free parking space close to the venue

ROB SPENCE KEYNOTE TECHNICAL RYDER
